Library Resources

The Spencer S. Eccles Health Sciences Library offers many resources that you can access from the library or without ever coming to campus. This resource sheet will help you learn about those resources.

Click the **Ask a Question** button from the library's home page (http://library.med.utah.edu) for information on how to contact the library.

This resource sheet will help with:

- Using resources from off campus – Remote Access
- Off Campus Access to Full-Text from PubMed
- Databases
- eBooks
- eJournals
- Mobile Device Information
- Getting Help

Remote Access

The first thing that you need to know about accessing these resources is how to **authenticate** yourself. Many library tools are subscription resources, so you have to show that you are affiliated with the university in order to use them. You can do this by following these easy steps:

1. Access the library home page at http://library.med.utah.edu/
2. Click the **Off Campus Access** button on the right-hand side of the page
3. Enter your uNID and password and click **LOGIN**

You're now logged in through "remote access" which means you can use most of the library's subscription resources, including databases, electronic journals, and eBooks.

When you access the library home page, or browse to other sites while you are logged in through remote access, you will notice the word **ezproxy** in the URL for the webpage. (For example: http://www.ncbi.nlm.nih.gov.**ezproxy**.lib.utah.edu/sites) If you no longer see that phrase, you have been signed out of remote access and will need to sign in again using the **Off Campus Access** button.
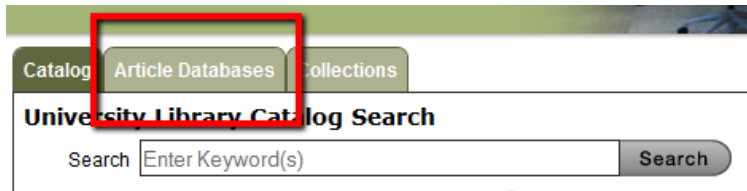

Off Campus Access to Full-Text from PubMed

In order to access links to full-text articles from PubMed, you should use the **PubMed** link from the library homepage (http://library.med.utah.edu/). This will direct you to a special URL that will allow you to see what citations in PubMed come from journals to which the library subscribes. If you are accessing PubMed from off campus, log in using the **Off Campus Access** button before accessing PubMed.

Databases

The library has many databases available for you to use. To access those databases:

1. Access the library home page at http://library.med.utah.edu/
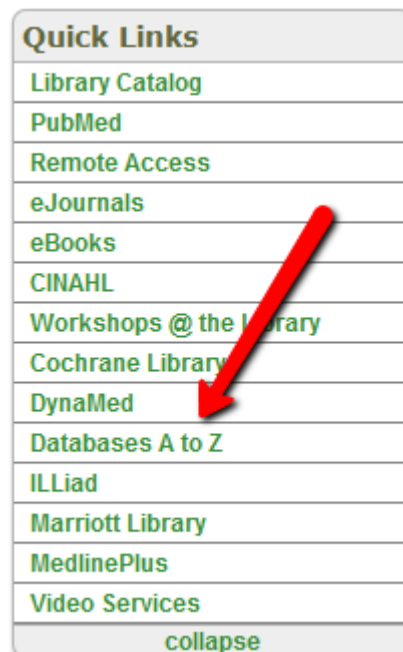

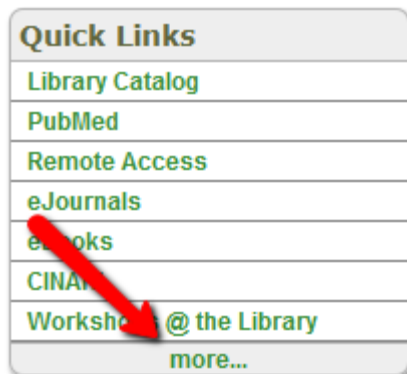

2. If you are not on campus, log in remotely using the steps mentioned above

3. If you know the name of the database you are looking for, you can click the **Article Databases** tab in the middle of the screen

4. Click the button that represents the first letter of the database you want

5. If you would like to browse through the list of databases, you can choose the **Databases A-Z** link from the **Quick Links** box on the left-hand side of the page.
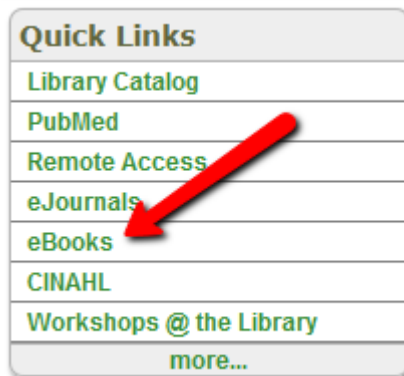

Innovate.

eBooks

The library has a number of electronic book collections that you can use from off campus. Most of our eBook collections have a limited number of "seats" available. This means that only a limited number of people can access the resource at the same time. If you get a message that no seats are available, check back in a few minutes. You should also be sure to always **log out** of the eBook once you're done, in order to allow other users to view it.

To access the eBook collections:

1. Access the library home page at http://library.med.utah.edu/

2. If you are not on campus, log in remotely using the steps mentioned above

3. Click the **ebooks** link from the **Quick Links** box on the left-hand side of the page

Mobile Device Information

Mobile apps for handheld devices and tablets (like iPads) are gaining popularity. We have created a resource sheet to give you some information about various apps for the health sciences. You can access that resource sheet here: http://lgdata.s3-website-us-east-1.amazonaws.com/docs/793/429931/Mobile_Apps.doc

The library also provides a list of useful apps.

You can access that list by following this link: http://library.med.utah.edu/km/mobileapps.php?WT.svl=navbarMobile

The Eccles Library has tablets and eReaders available for checkout.

You can find information about these devices in this research guide: http://campusguides.lib.utah.edu/content.php?pid=248701&sid=2054417

Getting Help

You can get help right away any time the library is open. Our current hours are:

Monday – Thursday: 7:00 am – 9:00 pm
**Friday: 7:00 am – 6:00 pm**
Saturday: 10:00 am – 6:00 pm
Sunday: 1:00 pm – 6:00 pm

You can find our hours by following this link: http://library.med.utah.edu/lib/hours.php

In order to contact someone at the library, you can call us at: **801-581-5534**

You can also **email** the library at this address: ehsl-reference@lists.utah.edu. You should hear back within 24 hours.

If you need a quick answer, our **instant message** service is available Monday – Friday from 8:00 am until 6:00 pm. Access the chat box at: http://library.med.utah.edu/or/asklibrarian.php

Type your question into the box and hit enter. If the balloon is green, someone is monitoring the chat box.

From the library website (http://library.med.utah.edu/), click the **Ask a Question** button to find ways to get help from someone at the library.
